

Seminar on Organic Electronics

ISPM RAS,
Moscow, Profsoyuzyana 70
February 2, 2011
(Wednesday)

Program

- | | |
|---------------|---|
| 11.00 – 11.30 | Dr. Sergei Ponomarenko (ISPM RAS) “Oligothiophene-based organosilicon materials for organic electronics and photonics” |
| 11.30 – 12.00 | Dr. Pavel Troshin (IPCP RAS) “Research activities in the field of organic bulk-heterojunction solar cells at IPCP RAS” |
| 12.00 – 12.10 | Coffee break |
| 12.10 – 12.40 | Prof. Sergei Chvalun (ISPM RAS) “Nanostructured polymeric and hybrid materials synthesized by VDP-process. Electronic and optoelectronic application” |
| 12.40 – 13.00 | Dr. Mikhail Yablokov (ISPM RAS) “Thin polymer films formation by plasma polymerization for optoelectronic applications” |
| 13.00 – 13.30 | Discussion |

Working language: English
